

Brandt Converge 18-3-6

Foliar Turf Nutrition

CONVERGE 18-3-6 brings it all together in one new technological advancement. CONVERGE provides highly efficient, quality foliar nutrition with 50% controlled release Nitrogen, and a fully chelated micronutrient package. Because of its unique blend of nutritional ingredients, Converge will provide instant greening to turfgrasses without rapid top growth, and no risk of burn. The micronutritional package in CONVERGE is fully chelated, and can be taken up either by foliar or soil absorption.

APPLICATION RATES

For best results, apply twice a month as a foliar spray early in the morning, or late in the day. Allow foliar sprays to dry thoroughly before irrigation to insure even foliar uptake.

For Warm or Cool Season Turfgrasses

MAINTENANCE: Apply CONVERGE at the rate of 4 oz. per 1,000 square feet or approximately 1.25 gal. per acre.

RENOVATION: Apply CONVERGE at the rate of 6 oz. per 1,000 square feet, or approximately 2 gal. per acre.

Overseeding

Apply CONVERGE at least semi monthly after seeds have begun to germinate at the rate of 8 oz. per 1,000 square feet or 2.5 gal. per acre. Most effective when used as part of an overall overseeding nutritional program.
